## JACKSON NEWS

JACKSON, Oct. 8.—John Essman, who for 17 years was one of the political lieutenants of Orrin B. Gould at Wellston, came to this county yesterday to visit his sisters, Miss Margaret and Emma Essman. His home is at Kemmerer in Wyoming, where he has lived for ten years. It is a land of cattle and coal, and he is interested in the coal industry. The roads run from 8 feet thick to 27 feet, and the coal pitches so that it is taken out in levels, perhaps twenty-seven altogether, the last from a distance of about a mile and a half. The thick vein is lignite, and only about 30 feet is mined, the rest being left for top. Two brothers of his wife, John and Dan Michter, live in the same town, and his daughter, Miss Ida Essman, is deputy treasurer of the county named Jackson. Essman will visit his sister, Mrs. Mary Gullum at Columbus before returning west, also his sisters, Kate and Ann at Cincinnati.

Mrs. A. J. McGarry of Florence, Alabama, who had been visiting her daughter, Mrs. Frederick E. Jones, in Jackson, returned home yesterday.

to visit her husband, Major Clark, at Camp Pratt in North Carolina. Last Sunday was the feast day of the autumn for the Catholic congregation of Jackson, for the Right Reverend Jas. J. Hurley, bishop of the Columbus diocese, came here to administer the sacrament of confirmation to a class of Sunday School children who had been prepared for the occasion for some weeks by Father P. T. Thurmehier. The list of children is as follows:

Girls—Anise Abraham, Mary and Margaret Coll, Mary Dobbins, Grace and Rose Mary Gallagher, Alice Lovejoy, Annie Marie Laiden, Catherine Pratt, Josephine Wampler, Helen and Mary Will.

Boys—George Abraham, William Carpenter, Charles Chapman, Morris Coll, Frank Joseph and James Crossin, Lawrence Dobbins, Paul Ervin, Paul Gallagher, William Hackett, Clifton Francis and Robert Harless, and William Gelger, Richard McGuire, Lawrence Smith.

The service began at four in the afternoon and continued until six. The church was crowded with both Catholics and Protestants, who listened to the bishop's instructions with much relish.

The bishop returned the same evening to Wellston where he had officiated in the forenoon, to inspect and examine the parish school there.

At the morning services at St. Peter and Paul's church at Wellston the class consisted of 15 boys and girls and Father P. T. Thurmehier, of Jackson assisted in the services.

The Wellston Iron Furnace Company of which Samuel L. Stephenson and Morris E. Stephenson are the principals gave notice on October 6 of an advance in wages for their men effective from October 1, and the details will be made known today. They

were unable to make an advance in January but find themselves now with a better outlook.

A rally of the sixth district of the South Eastern Ohio conference of the United Brethren church was held in the church of Rev. D. H. Dally in this city yesterday with about fifty delegates in attendance. The district comprises the counties of Lawrence, Pike, Soloto, Jackson, and Vinton with some churches in Ross and Gallia, with 13 charges and some forty-seven churches, each a nucleus for religious effort for about five thousand members, children and listeners altogether.

The rally had for its president, Rev. Joseph H. Harris of Westerville, the superintendent of the conference, and there were present with him, Rev. A. C. Cox of Circleville, president of the Christian Endeavor Union, Rev. Walter H. Clippenger, president of Otterbein University at Westerville, and Rev. E. M. Borch, superintendent of the United Brethren Mission in Africa.

Among the ministers who reported regarding their respective fields of labor were the following: Rev. Samuel Weaver of South Webster, who has seven churches, Deer Valley, Pinkerman, Salem, Long Run, White Gravel, Bloom Switch and South Webster. There are about forty members in the last named and about one hundred and ninety-five on his circuit. Mrs. Emma Holman of South Webster, was a delegate. That at Portsmouth, which has the finest church building in the district, but no members were present.

Rev. Otto W. Smith, pastor of the Ironton church has about one hundred and forty members, and he reported that Rev. N. J. Nihizer in charge of Lawrence circuit, has seven churches, Hecla, White Oak, Bald Knob, Oakland, Aaron's Creek, John's Creek and Cannon's Creek, with a membership of about 312. There is another charge in east Lawrence and a part of Gallia with four or more churches. Mr. Hermon, Walnut Ridge, Union and Pleasant Valley.

Rev. Roy C. Astell of Waverly, reported for six churches, that at the county seat and those at No Name, Buchanan, Beaver, Hamman and Meadow Run. They have about 200 members.

Rev. Homer Thompson reported for Oak Hill, Gallia, Fairview, Zion and Union with about 375 members. Some of his churches are in Gallia county.

Rev. J. O. Black of the Hamden-Caston charge, has Otterbein, Poplar Grove and Mt. Carmel under his charge.

Rev. E. H. Dally of Jackson, is also in charge of Victory Chapel. The larger church has a membership of about 210 and is one of the best organized in the district. It owns its own parsonage recently bought.

Rev. M. L. Fisher of Dundas was present also. His charge is altogether in Vinton county.

#### WOMEN ARE CARELESS

This has been proven over and over again during the war. They overestimate their physical strength and overdo it. Their ambition is commendable, but does not compensate for the hours and days of misery which they suffer from symptoms caused by female ill-health on by overwork.

Women who are weak, nervous, despondent with Leadre's, Backache and dragging down pains should remember there is one tried and true remedy, that is Lydia E. Pinkham's Vegetable Compound, now recognized everywhere as the standard remedy for such conditions.

#### Elbow Is Fractured

Mrs. Hilda Brown, of Beaver, 62 years of age, was injured yesterday, and suffered a fracture of her left elbow. She came to Portsmouth Wednesday morning, had the elbow X-rayed

at Fowler's laboratory and then entered Hopstead Hospital, where the fractured bones were reduced. Dr. J. S. Jordan attended Mrs. Brown.

## WAR ON OLD HIGH COST

COLUMBUS, O., Oct. 8.—All prices of food, clothing and many of the necessities of life are to be controlled by the federal government, which Attorney General Clegg said today. The new law, which is the first of its kind in the history of the United States, will be enforced by the federal government, which will have the power to fix the prices of all commodities. The law is designed to prevent the kind of price fixing that has been going on in the past, and to protect the public from the high costs of living. ## Worries Over Accident; Farmer Shoots Himself

Carey Kepp, 55, well known farmer of late over the accidental killing of his son, shot himself yesterday morning. The son was killed by the accidental discharge of a shotgun. The father was worried about the son's death, and was brooding over the killing of his son. He placed the barrel of the shotgun against his head and fired. The shot was fatal. ## New IDEAL-Arcola Radiator-Boiler

The IDEAL-Arcola takes the place of a furnace stove. But it stove wastes much of its heat up the chimney, whereas the IDEAL-Arcola is water-jacketed, and conveys its heat by hot water circulation through pipe-connected AMERICAN Radiator appliances in the adjoining rooms. Every bit of the big volume of heat developed from each pound of fuel is therefore made useful in keeping all the rooms uniformly, healthfully warm. There is no cookepot. The IDEAL-Arcola does not rust out or wear out—will outlast the building—*is a genuine, permanent investment!*

**Shipped complete ready for immediate operation**  
The beauty of the IDEAL-Arcola method is that no cellar is needed. Everything is on one floor. The Arcola is placed in any room that has a chimney connection. No running to cellar. If there are two or more tenants in the building, each can have his own Arcola and make the temperature to suit his own needs—can make his own climate! If you do not wish at first to heat the entire building, buy a small size IDEAL-Arcola and later on buy extra sections for the IDEAL-Arcola and two or three more radiators to warm more rooms.

**Cleanly heating—healthful heating—  
free from fire risk!**

Unlike stoves, there are no coal-gas leaks into the living-rooms. The IDEAL-Arcola delivers the soft, radiant warmth of hot water—not the dry, burnt-out atmosphere of stove heating. There is no fire-risk to building—no danger to children—fire lasts for hours! The Arcola burns hard or soft coal, coke, gas, or wood. Brings cost of heating down to the lowest notch—and gives IDEAL comfort.

Catalog showing open views of houses, individual flats, stores, offices, etc., with the IDEAL-Arcola Boiler in operation will be mailed (free). Write today.

COLUMBUS, O., Oct. 8.—With the cream of the stars of the past three years back in school and available for football, Ohio State's prospects for another Western Conference national championship are considered excellent by followers of the Scarlet and Gray team. A score of letter men from the 1916, 1917 and 1918 teams form the nucleus of the wealth of material with which Dr. Wiley, winner of the Western Conference title in 1916 and 1917, and his assistants have to work.

Despite the optimistic spirit which permeates the campus State route to realize full well that other Big Ten teams are claiming to be equally fortunate and both players and students body realize the enormity of the task.

can look to conference honors. It is for Michigan that the Scarlet and Gray team, is waiting. While Michigan is yet to go before the "Columbia" team, the followers of the latter are certain that the trick can be done and that this fall's model of the Wilke machine has the best chance of being the first to break the record of an Ohio State squad ever had to bring the tell.

The Wolverines, who furnish the opposition on October 25 at Ann Arbor, are the first of the Western Conference teams to be met. Ever since the 1918 defeat inflicted on Dr. Wilke's team at the hands of Harry Up Voss's pupils, the last year's winner of play, supporters of the Scarlet and Gray, have been looking for a chance to get even.

After the Michigan game, Purdue, Wisconsin and Illinois are slated in order, the latter game being played at Madison. The Bollweckers are the new Big Ten opponent to find their way onto the present schedule, having replaced Indiana. The Hoosiers game on November 22, will be the annual home-coming contest.

NOTHING BETTTER THAN "NOSTRIOLA"  
AND "MUST-TUR-PEP" TO PREVENT "FLU"

Doctors and Druggists Recommend the Immediate Use of These  
Simple Home Remedies By Every Member of the Family

Nostrils is Antiseptic, Cleansing, Emollient. Use Nostrilia Balm for spraying to nostrils, or let physician's size bottle of Liquid Nostrilia for spraying nose and throat.

The nostrils and air passages are the breeding places for influenza and other disease breeding germs.

Don't fail to get Nostrilia, Balm or Liquid, and have every member of the family use it daily as a preventive.

In case of Sore Throat, Bronchitis, Cold in Head, Chest Cold or throat-Infected Pneumonia, use greaseless "MCS-TUR-PEP" quickly—also continue to spray nose and throat with Nostrilia.

For quick results, lather parts with hot water, apply "MCS-TUR-PEP" freely and cover with a hot wet woolen cloth.

"MCS-TUR-PEP" is greaseless—"mud" right in," will not soil linen, and it is the most, cleanest mustard preparation known.

## The Markets

## NEW YORK STOCKS

NEW YORK, Oct. 8.—Trading at the outset of today's stock market lacked the sensational features of the preceding session, even the more speculative boxes making only moderate gains with standard shares. Before the end of the first half hour, however, post operations in numerous specialties were again under way, at gains of one to 6 points. Leaders of the movement included National Biscuit, American Woolen, Worthington Pump, Texas Company, Pan-American Petroleum, Standard Oil, Springfield, Tire, Good and Better, Industrial Alcohol, and American Sugar. Leading specialties and the more active rails, notably Reading and Texas and Pacific also improved.

Trading became more professional as the session progressed, activity continuing to center in speculative stocks. Motors and allied shares, also oil, leather and food issues, extended their gains with equipments, notably Halcum Locomotive and Harvester, American Woolen, Continental Can and inactive specialties, such as United and Barrett Company, were exceptionally strong at gains of 2 to 10 points. Steel in steel and coppers and a strong tone for shipbuilders carried average prices to higher levels at noon although the 9 percent money rate caused some slackening of activity.

## CHICAGO GRAIN AND PROVISIONS

CHICAGO, Oct. 8.—Predictions of wide spread rains lifted the corn market today after some show of weakness at the outset. Opening prices, which ranged from 1/2c lower to a like advance, with December 1.22 1/2 to 1.23 1/2, and May 1.21 1/2 to 1.22 1/2, were followed by a moderate general decline and then a rally that carried December and May to well above yesterday's finish.

Prices closed unsettled 1/2c to 1/4c lower with December 1.22 1/2 to 1.23 1/2, and May 1.20 1/2 to 1.21 1/2.

Oats displayed independent firmness. After opening unchanged to 1/2c higher, including December at 70 1/2 to 70 3/4, the market set a general upturn.

Lower quotations on hogs weakened provisions.

Butties which took place in the latter trading failed to last.

# Examiner Makes Report On Plumbing Inspection

The following is another installment of the state examiners report on the health department.

"The services of the city physician should all be covered by salary and in any event payment for supplies should be at actual cost. There cannot legally be a regular allowance for supplies. We should hold payments as illegal payments and urge immediate discontinuance of such payments in the future."

The above statement of the Bureau is sufficiently clear without any further elaboration.

During the period added there was paid to Dr. H. M. Kell as an allowance for medicines \$250.00, and to Dr. J. D. Hendrickson \$58.33. The above disbursements of the public funds are held to be illegal and findings are accordingly rendered.

The salary of the city physician should be fixed at a definite amount to cover all service rendered or else he should be required to submit monthly an itemized statement of the actual cost of the medicines furnished by him and reimbursement made accordingly.

Owing to the lack of appropriation, Dr. Hendrickson has not been paid for medicines since July, 1918.

## PLUMBING INSPECTION

As found on pages 21, 22 and 23 of the report of the board of health, said board adopted a resolution prescribing rules and regulations governing plumbing and sewerage within the city.

The rules emphasized provide that no plumbing shall be done, except in case of repairs or leaks, without a permit being first issued therefor; that applications for permits shall be made on forms provided by the board and each application shall be accompanied by a fee of \$1.00, and an additional charge of 25 cents for each trap or vent fixture up to and including ten, and for each fixture thereafter the sum of 25 cents; that no permit shall be issued until suitable plans and a description in duplicate of the work to be done have been submitted to the plumbing inspector and approved by him; that the inspector shall keep a record of all plans, together with his action thereon, and also make a record of all plumbing in each building in the city; that the inspector shall be notified by all parties in charge of the work twenty-four hours before the work is ready for inspection; that all plumbing when completed, and before being used, shall be tested by the smoke test in the presence of the inspector and if he is satisfied that the work is done in accordance with the rules he shall issue a certificate of approval, but otherwise shall disapprove same, which shall not be put into use until it has been altered as prescribed and received his approval, and that all plumbing work shall be left uncovered and convenient for inspection for a period of not less than twenty-four hours after notifying the inspector.

Under the plumbing code, as adopted by the board, a plumbing inspector was appointed and his compensation fixed at \$1200.00 per annum, payable monthly.

Proper application forms were prepared by the board, the same indicating the essential data, together with a blank for the drawings and description of the plumbing to be installed. When the application is presented to the plumbing inspector accompanied by the permit fee and the charges for the fixtures as permit is issued.

It was noted that in many instances the applications did not contain the drawings and a description of the plumbing to be installed, and on many of the drawings it was impossible to determine the number of fixtures installed. Under the rules of the board the plumbing inspector should refuse to issue a permit until the plumber has fully complied with the regulations and furnished intelligent drawings and descriptions of the contemplated plumbing. It was also noted that the plans and descriptions were not prepared in duplicate as required under Section 4 of the plumbing code nor did the plans submitted bear the approval of the plumbing inspector. This provision of the code should be strictly enforced and all plans should be made in duplicate and the approval of the inspector noted thereon. The purpose of such is not only to eliminate controversies that might otherwise arise but also to protect the property owners.

It was disclosed at the time of the audit that the following applications were missing: Nos. 1437, 1438, 1444, 2, 17, 18, 19, 20, 27, 52-53, 68, 71, 80, 117, 118, 121, 171-173, 193, 216, 217, 220-221, 237-239, 253, 275, 408-420, 442-446, 481-483, 494, 495, 508-510, or 15 in all. Under Section 6 of the code the inspector is required to keep a record of all plans and descriptions submitted, hence the liability for their preservation rests upon him. The inspector states that in changing to his present location the applications might have been misplaced, also that they may have been destroyed by the janitor. No difference as to how the missing application may have been lost or destroyed, the plumbing inspector is not relieved of adverse criticism as it was his burden duty to see that they were not there would be no possibility, under ordinary conditions, of their destruction.

The careful preservation of this data is as essential as the preservation of the financial records in the auditor's office.

Under the rules it is clearly stipulated that all plumbing shall be submitted to two inspections or tests, viz: the roughing test and the smoke test, the latter test to be made when the plumbing is completed. As per the statement of the inspector, during 1918 the plumbing has seldom been submitted to neither the water test, the smoke test being infrequently resorted to. The explanation of the inspector for this non observance of the provisions of the code, was that the plumbers were short of help. When questioned in regard to the time and labor necessary in the making of the water test and the smoke test, he stated that it would probably take not to exceed one half hour to make either test and that as much labor would be required in making the one as the other. This is another instance wherein the inspector failed to comply with the code, and extended a degree of leniency that was unwarranted. The object of the plumbing code is not primarily the securing of additional revenue to the city but rather the protection of property owners against defective plumbing. Each provision should be afforded to the extent that the property owners are entitled of the plumbing inspector fails to fully observe the requirements of the code and does not fearlessly and impartially enforce the provisions thereof.

On the application blanks are the following data which are required to be filled out by the plumbing inspector:

First Inspection  
Final Inspection  
Approval Certificate Issued.

In no instance, as disclosed by the application blanks on file, did the plumbing code. If the board of health is desirous of protecting the interests of property owners, as is indicated by the code adopted by them, then they should demand of their employees, the plumbing inspector, that he enforce to the letter the requirements as set forth in the code, otherwise the property owners will not only fail to receive value for the money expended by them but to a certain extent are deceived, in that they do not receive the assurance as to the character of the work done for them, such as they have a right to expect. In other words, the property owners to a large measure rely upon the plumbing inspection department for a guarantee as to the quality of the work performed and to that extent relax as to their own vigilance concerning the construction and the obligations of the board to the property owners served are consequently enhanced, and from such obligations they cannot escape culpability if there be a tolerance of carelessness in the administration of the plumbing inspection department.

The plumbing permit fees and the fixture charges are collected by the plumbing inspector. A stub, receipt record of permit fees and fixture charges, as well as a cash book record of collections, is kept by the inspector. From these records,

together with the available applications, the collections of the department were checked.

# Who Gets The Walnuts?

"Who shall have the walnuts?" was the question which brought Mrs. Molly Hamilton and her neighbor Mrs. Emma Winslow, both colored, into Mayor Kaps' court last night. Mrs. Winslow had Mrs. Hamilton arrested on a disorderly conduct charge.

Attorney T. G. Healy represented Mrs. Winslow. According to the testimony a walnut tree stands in the Winslow yard and the neighbors had a quarrel as to how the walnuts were to be divided. Mrs. Winslow claimed that she had promised them to some children and Mrs. Hamilton claimed that Mrs. Winslow had told her she could give them to some other children. When the two different sets of children started to get the walnuts, the trouble started and was aired before the Mayor last night. He suspended action pending further developments.

## The Best Health-Insurance Is a Clean Colon

THERE ARE TWO WAYS of insuring yourself against disease. One is to pay big premiums to an insurance company which will pay you so much a week when you get sick. And if you get sick, most of this money will have to go to the doctor who tries to make you well again.

THE BEST WAY is to keep the disease-resisting forces of the body so well organized and equipped as to guarantee health. Then you can enjoy life right along, and make it pay you premiums instead of paying premiums on a policy.

This can be done only by keeping the colon clean and free from clogging. For the most eminent medical authorities tell us that about 90% of the sickness we have is directly or indirectly due to constipation.

Nujol is the best health insurance "policy" in existence, because it keeps the colon clear and clean without dragging or weakening any of the other organs. It is the only form of constipation which has no unpleasant or dangerous "comebacks".

Nujol is not a drug. Every particle of it that goes into the body comes out of the body. Just on its journey it softens any mass that may be impeding in the colon and lubricates the way so as to make it easy for nature to move the obstruction and properly get rid of it.

Nujol never interferes with digestion or any functions of any organ. It is not absorbed by these millions of little "worms" in the intestine which suck in nutriment from the food passed along by the stomach. Its sole job is to keep things moving in an orderly, comfortable way. And it does this without any pain—does it equally well for babies, children, adults and aged folk.

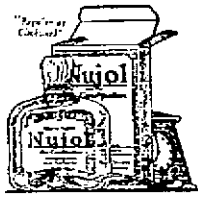

Try Nujol. Get a bottle from your druggist today.

For valuable health hints—"Thirty Feet of Danger" free, write Nujol Laboratories, Standard Oil Co. (New Jersey) 50 Broadway, New York.

**Warning:** No other laxative is so effective as Nujol. You can get it from your druggist.

## May Build New High School

The Ironton board of education has started a movement for the erection of a handsome new high school building in that city.

It has been needed for several years and the board members are in earnest about building one. They have already started a campaign to select a suitable site.

## BUSY SCENES AT DRY HEADQUARTERS

Dry headquarters, Seventh floor, First National Bank building, is a busy place these days. Today a number of county men were in to receive campaign instructions.

"Volunteer workers are making a splendid showing," stated dry manager.

Mr. Rev. J. B. Hawk today. Several thousand circulars and personal letters have been sent out in the past few days.

In a short time a dozen large posters will arrive here for placement, assisting in the campaign materially.

## Trachoma Clinics Continue

"No, a person doesn't die of trachoma, but a person becomes blind," says an expert on the subject, Surgeon John McMillen, employed by the United States Public Health department and now conducting the Trachoma hospital here.

There is no choice with the inevitable. As long as the dread contagion rears its head unguarded among the school children of Portsmouth, the tragedy of blindness will multiply.

Treatments which cure the disease are being conducted by Surgeon McMillen, United States Public Health representative. Dr. Moss Hopkins and Dr. F. L. Goodwin, State Public Health representatives, who were sent here for that purpose by the State. The treatment is free and is a cure.

from blindness which is the result of trachoma. Neglect in this matter is criminal. What your child has, may spread through carelessness to many other children in the school room or at play, or it will be reversed and it will be your child who may contract the disease.

Already 60 percent of the cases found in Seale county have received the treatment which cures the disease, a few cases will remain.

The final opening of the clinic will be held here Friday and Saturday of this week at the Gay Street Dispensary. Surgeon McMillen will personally conduct the clinic. Dr. Hopkins and Dr. Goodwin will be at the clinic. Public Health nurses will assist.

## Artificial Rise Here

A stage of 5.1 and rising showed in the Ohio river at the wharftont this morning at seven o'clock. This artificial rise in the river has provided sufficient water to let several towboats out of the local harbor.

The Otto Marmet and J. T. Hatfield have passed Portsmouth on this rise. The boats are going up stream. The K. P. Clifton is at Manchester waiting for the rise and expects to reach as far as Portsmouth on this wave.

## A Simple Way To Remove Dandruff

There is one sure way that has never failed to remove dandruff at once, and that is to dissolve it, then you destroy it naturally. To do this, just get about four ounces of plain, common liquid arvon from any drug store (this is all you need), apply it at night when retiring so enough to moisten the scalp and rub it gently with the finger tips.

By morning, most if not all, of your dandruff will be gone and three or four more applications will completely dissolve and entirely destroy every single strand and trace of it, no matter how much dandruff you may have.

You will find all itching and digging of the scalp will stop instantly, and your hair will be fluffy, lustrous, glossy, silky and soft, and look and feel a hundred times better.

## Engine Plant Dismantled

The Portsmouth Engine Company, Third and Jefferson, are dismantling their plant, having sold all of their machinery to various dealers throughout the country.

The company is going out of business and there is considerable talk of a rubber factory going into the plant, although there is nothing definite about this project at this time.

## Will Observe Roosevelt Day

The public schools of Portsmouth will observe Roosevelt Day, October 27th, thus joining with other public schools all over the state in their tribute to the great American. The day is the colonel's birthday anniversary.

Prof. Appel, in communicating on the observance of Roosevelt Day, said there would be a program in each of the school rooms over the city. The programs will be much the same as those rendered on Lincoln's and Washington's birthdays.

The High School will probably have chapel exercises in the morning, at which time suitable tribute will be paid to the life of Colonel Roosevelt.

# Bureau Of Community Service Drive Meets With Success

## CITIZENS RESPOND TO APPEAL; BE READY TO DO YOUR SHARE

Today noon when the business men who are convening for the Bureau of Community Service had luncheon, reports were made as to

### CATARHIAL DEAFNESS MAY BE OVERTCOME

If you have Catarrhal Deafness or hard and ear noises are growing hard of hearing go to your druggist and get 1 ounce of Parvite (double strength), add to it 1/2 pint of hot water and a little granulated sugar. Take 1 tablespoonful four times a day. This will often bring quick relief from the distressing head noises. Catarrhal deafness should be cured, breathing becomes easy and the mucus stop dropping into the throat. It is easy to cure, costs little and is pleasant to take. Anyone who has Catarrhal Deafness or hard noises should give this prescription a trial.

the progress of the campaign. All were optimistic and some reported that persons had doubled, and in some instances tripled their last subscription to this worthy cause. Although many splendid subscribers have been made, everyone is called upon to do his part in providing a much larger sum for the Bureau this coming year, so more money will be needed on account of the organization extending its activities to other fields.

The big drive is on. It is not another drive by one of the night schools but a drive or fund-raising for the Bureau of Community Service. The office is not being conducted by an army but sixty business men who have had part in like money-raising campaigns are doing the work of getting subscriptions for the Bureau. Funds are necessary to operate the

Bureau. Without money, it would be necessary to shut the doors of the Bureau and quit. Prepare to do your part in this community work by contributing your share to the big fund needed to put the Bureau on a splendid working basis for another year.

The drive started Tuesday noon and will close Friday noon. This morning it was announced that the men con-

ducting the widespread canvass of the city, had met with much success in their efforts to raise money Tuesday afternoon. The city men went at their work with a will again this morning with the idea that they will rush the canvass through to completion within the set time.

A glance over the report of the Bureau's work for the past year will convince anyone that it is an organization worthy of all help that can be given.

### BANISH CATARRH

Breathe Hyomei for Two Minutes and  
Relieved Stuffed Up Head

The little hard rubber Hyomei Inhaler which you can get at Warburton Bros. or any reliable druggist can easily be carried in pocket or purse. It will last a life time. Into this inhaler you pour a few drops of the pure healing oil of Hyomei. This oil is absorbed by the antiseptic cause within and how you are ready to breathe it over the germ-infected membranes where it will quickly begin its work of banishing catarrhal germs and ending Catarrh. Hyomei is made of the Italian eucalyptus combined with other antiseptics and is a very pleasant to breathe. It is guaranteed to banish catarrh, bronchitis, influenza, tonsillitis, sore throat, croup, coughs and colds or nose's block. It often cures colds if inhaled at head and opens clogged nostrils in two minutes. Complete outfit including inhaler and one bottle of Hyomei, costs but little. While extra bottles, if afterward needed, may be obtained at any druggist for a few cents.

Plans for this campaign for funds to operate the Bureau for another year were made sometime ago and all details of the canvass were carefully considered, so the business men, doing the work could go about the canvass in a very systematic manner, accomplishing in a few days the task that has heretofore taken several weeks.

The business districts, the factories, and some of the residential sections will be thoroughly canvassed by the solicitors who are very desirous of pushing the campaign to a hasty finish.

The Bureau takes care of the needy of the city, attends to the helpless sick, has received much praise for its mothering of young girls, and has always worked hard for the betterment of the city.

With these many good things in mind, one should not hesitate in making substantial subscription to keep this good work going. Every subscription no matter how much will be a "spoke in the wheel" to keep the splendid work progressing.

Before Friday noon a solicitor from the Bureau will call on you, so be ready to do your part.

## SAYS TOBACCO CROP WILL BE BIG ONE

HUNTINGTON, Oct. 2.—According to H. D. Reynolds, an official of the Huntington Tobacco Warehouse Company, there has been a remarkable revival of tobacco prospects for the coming season. The favorable rains and warm weather of September and the first days of October tend to relieve a situation which was anything but hopeful in mid-summer.

Mr. Reynolds stated last night that a recent survey of the prospects in the adjacent parts of the three states from which the Huntington market draws its product, has brought a feeling of supreme satisfaction, and it is now believed that the crop available for the Huntington breaks will equal that of last year—the highest record ever made—and that it may even exceed that record.

## PAYS TRIBUTE TO FAMOUS HOOSIER BARD

At the High School this morning O. F. Malley, Principal, addressed the students on the late James Whitcomb Riley.

Today is the anniversary of the birth of the celebrated poet, who died several years ago.

The late Mr. Riley was born in Indiana and was about 70 years of age at the time of his death.

Principal Malley recited several of his famous poems, and received a rapturous applause from the students as his eloquent oratory.

Miss Mildred Werner and Mildred Schloess gave a piano duet at the opening of the exercises.

## FIRST VISIT HERE SINCE 1861

John C. Collins of near Kansas City, Mo., is here for a visit with old friends for the first time in many years.

He was here the last time in 1861 when he enlisted in Co. D, 22nd Reg. in this city. It was April 19, 1861 when he enlisted. He lived on Tygart Creek, but went to Kansas after the war. He was a second lieutenant in the army and knew General Oliver Wood who was with the 22nd Reg. at the time.

Mr. Collins worked on the John Miller Holladay farm on Scioto Trail when he was a young man. He enlisted at the age of 23.

While here he will visit George Balladay of Waller street a son of J. M. Holladay. He is greatly surprised at the growth of Portsmouth as it was a mere village when he was here the last time.

## PROTEST AGAINST REMOVING TREES

A petition has been sent to Prof. Frank Appel, superintendent of schools, to be presented to the Board of Education at its meeting Friday night, protesting against the proposed removal of two trees on the east side of the High school building.

The removal of the trees was proposed to the board with the suggestion that the removal of them would enable the flag on the flag pole to be erected by the class of 1920, to be seen from all parts of the city.

The board will also be presented with the resignation of two janitors, Allen Smith, of the Union street school and William Parker, of the Lower Fourth. Applications for the positions are being received.

Loyce now pitching for Cincinnati. Schalk up. Ball one. Ball two. Strike one. Schalk hoisted a high one that Duncan took care of. Cleatle up. Cleatle switched his batting position to the left side. Ball one. Strike one. Strike two. Cleatle struck out. J. Collins. Foul strike one. J. Collins hit one past Groh, that went for a double. It was a hard hit ball that Duncan felled in the extreme left field. J. Collins up. Ball one. Strike one. Strike two. E. Collins struck out, but Wingo dropped the ball and had to throw to Daubert to get him. No runs, one hit, no errors.

Up to this juncture, Cleatle had pitched a woefully game. Only two singles were made of his delivery.

**DAUBERT UP.** Strike one. Foul strike two. Ball one. Daubert struck out, the third ball being called on Groh. Groh up. Ball one. Strike one. Groh doubled to left, the ball clearing the fence in front of the bleachers and rolling under them. It was held to a two bagger by the ground rules. Roush up. Cleatle grabbed Roush's bouncer and tossed him out at first, while Groh was going to third. Duncan up. Ball one. Strike one. Foul strike two. Ball two. Duncan put a clean single through the pitcher's box. Groh trotting home. Kopf up. Ball one. E. Collins took Kopf's grass cutter and tossed to Roush forcing Duncan for the third out. One run, two hits, no errors.

**SEVENTH INNING**  
Weaver up. Foul strike one. Ball one. Ball two. Foul strike two. Foul. Foul. Ball three. Weaver fouled off several and then struck out, the third one being called on him. Jackson up. Rath grabbed Jackson's grounder and retired him easily at first. Felsch up. Strike one. Ball one. Foul strike two. Ball two. Ball three. Felsch fanned, taking a good swing at the last one but missing it. No runs, no hits, no errors.

**EIGHTH INNING**  
Neale up. Strike one. Ball one. Foul strike two. Foul. Neale struck out, swinging at the final offering but failing to connect. Wingo up. Ball one. Foul strike one. Ball two. Ball three. Strike two. Foul. Wingo walked. This third pass to first today. Loyce up. Strike one. Ball one. Ball two. Strike one. Loyce fanned. Rath up. Strike one. Rath singled to center. It was a clean hit that J. **"The Old Flood Wall"**  
The crowd is setting thin. On the old Flood Wall, And in another month it will be very small.

But this whole summer long, The crowds were there. Scattered along the wall: Breathing the fresh air.

It has stood lots of storms And other abuse: But it still will be there For next summer's use.

There was one wise guy. We won't mention his name. Who brought down a cushion For the world series game.

We have signed a petition. One and all. To ask our dear council To "let 'em Wall."

ATTEMPT TO  
WRECK PLANT

PITTSBURGH, Pa., Oct. 2.—An attempt was made to wreck the plant of the American Steel and Tinplate Company at McKeesport early today when a missile, believed to have been a bomb, was thrown on the shipping department building. It exploded,

leaving a large hole in the roof of the structure. No one was injured.

The police believe the explosion was caused by a time bomb placed on the roof building.

Workmen on the night shift, at their posts directly under where the missile exploded, fled in terror when the explosion occurred and bits of shattered wood and glass were hurled in all directions.

Foreign residents of the district, panic-stricken, rushed from their homes into the streets. The report of the blast could be heard for blocks and attracted hundreds of persons to the scene.

Although several hundred mill guards and police were rushed to the plant immediately after the explosion no trace of the persons or person responsible for the blast could be found.

The tin plant is one of the largest concerns of its kind in the country and has been affected by the steel workers' strike. During the past week, however, many men are said to have reported for work. The police say that a number of these men have been threatened with death if they continue to remain at work. They believe that the bomb was used to terrify those workers, who have deserted the ranks of the strikers.

ATTACK CARS  
OF STRIKERS

BUFFALO, N. Y., Oct. 2.—State troopers armed with rifles patrolled the streets of Lackawanna this morning. It was the first time since being assigned to duty in the strike area that the constabulary had carried arms other than clubs and revolvers.

Trains and street cars carrying workmen from Buffalo were under armed guard. There was no attempt today to renew the attacks on trolley cars carrying workmen which resulted in the wounding of two men and the injury of several others.

There was evidence of increasing activity in the plant of the Lackawanna Steel Company. No statement as to number of men at work was forthcoming from company officials. Members of the state police estimated that 1,200 men passed through the gates this morning. About 6,000 men were employed when the strike was declared.

Wiley N. Kates, Times court reporter is ill at his home on Twelfth street.

Miss Gertrude Lyons of near Stockdale spent Sunday in Minford.

## SHE MARRIED AN AVERAGE MAN

It's not a little more than a week to Jim's presents underneath and twice Christmas. Thank God! the glamour too, that I don't open till Christmas of Christmas has not yet died from morning!

My heart. Steam heat, electric I must drag old Jim out shopping "candle" for the Christmas tree and with me tonight. The stores are open, the high cost of giving have not dis- and it will be such fun to buy the coveted my Christmas spirit. I'm tree trimmings and push through the happy as a lark, preparing for our guests—the saltature crowds of first real Christmas together in our Centerville!

Later. As I sit and knit and embroider the fifties I'm sending to those I love (and there isn't a useless gimcrack among my pile of presents) I picture what New York must look like these arch-bustling days. Have they the Christ- mas spirit there? Do people visit the shops that have tons of the wonderful things Centerville stores set forth in two and three so jocosely labeled "Direct from New York?"

I'm trying to be economical with my presents, snatching them carefully to the persons they're for. Jim's \$20 will easily cover all. But it will be so absurd to use part of that \$20 to buy Jim's gift that I've decided to draw a little from my own savings bank.

I've decided on one of those warm, light, silky, crinkly lounging gowns for Jim. I got the idea of it the night I found him in the living room—that awful night when I stole out and he stole out, sleepless and miserable, and we had the reconciliation after that horrible estrangement that lasted a week. His bathrobe looked actually mangy. I believe it was what touched my heart so.

And we must have a tree! I want to gild nuts and string cranberries and festoon popcorn on it, and have real candles and glass icicles, and put all

## WHO'S WHO IN THE DAYS NEWS

MRS. GEORGE BASS

Mrs. George Bass of Chicago, who has had probably a wider experience as a political campaign manager than any other woman in the country, is sure to become a prominent figure in Democratic circles in the next few months.

She will have an important part in organizing women voters of the country for which the Executive Committee of the Democratic National Committee has already prepared.

In the 1916 campaign, operating from Chicago, Mrs. Bass did remarkable work for the Democrats, and it was largely due to her efforts that ten of the twelve states in which women were then voting were carried for Woodrow Wilson in the Presidential election.

She then gained a knowledge of the conditions in these pioneer Suffrage States which she has at her finger tips, and she can rattle the facts and figures as to the situation and conditions in Colorado, for instance, in an amazing way.

Mrs. Bass was very active in war work, speaking for the Liberty Loan and other drives, and more recently she visited several states, speaking in favor of the League of Nations. She contends that she discovered the true situation in California many weeks ago and informed the President at the White House that the women of the far West States were all eager to see the much talked of covenant adopted.

At the recent meeting of the executive committee of the Democratic National Committee in Atlantic City, Mrs. Bass reported conditions as she found them and made the suggestions which later led the committee in executive session to decide to admit women to the party councils on an equal footing with men.

## Moose Start A Drive For 1000 New Members

Peerless Lodge, Loyal Order of Moose, did themselves proud Tuesday night in the Lodge Room of their Temple, which is the 1511 Main street, at Third and Washington streets. There was a banquet, speeches and all that goes to make a sumptuous and long-to-be-remembered event.

The attendance was large, the largest the lodge has enjoyed in months. W. A. Laffin, the Moose organizer, with a "prop" that eludes the globe, was present. He is to have charge of the Membership Drive of the local Moose. It starts today, and the goal is an increase in members that will justify the Moose here having a fraternal edifice or new home that will be the swiftest in the city. There is a drive for new members in the Moose order going on all over the world. Moose lodges are now in London, England; in Paris, Rome and

Brussels. To show what the order is doing abroad can be mentioned that the Supreme Moose Council sitting at Baltimore voted an expenditure of \$25,000 for the furtherance of the Moose in France. The order has a half million members and by the first of the year will total a million. The Portsmouth lodge figures on having 1,000 new members by November. Only the very best citizens will be honored with membership.

Organizer Laffin addressed the local Moose Tuesday night, and presented his plans of procedure. He leaves for Chillicothe this evening to attend an important meeting of the Chillicothe lodge.

Doc Waddell, who is special representative of James J. Davis, director general of the Moose, also attended the meeting and banquet Tuesday night, and gave one of his usual short talks.

ANNIVERSARY OF BATTLE OF PERRYVILLE  
Today marked the fifty-seventh anniversary of the Battle of Perryville in the conflict of 61-65. In this memorable battle Col. Oscar Moore, who was well known here, was wounded in the right

## New - York - Day - By - Day BY O. O. MCINTYRE

New York, October 8—  
Too many of my friends.  
Are putting on airs.  
Something about New York.  
Makes a person.  
Want to call a "bird girl."  
A "mold."  
And things like that.  
And just lately.  
Bide Dunley has died.  
A French governess.  
For his little girl.  
And Webster, the cartoonist.  
Has a Japanese cook.  
And Arthur Somers Roche.  
An English butler.  
Whose name is Jurgens.  
And even Chie Fair.  
Calls his house "The Oaks."

And Edna Ferber.  
Who is from Appleton, Wis.  
Where they still.  
Have faith in suspenders.  
Has a low rung French car.  
And Ray Long has a yacht.  
With wicker furniture.  
And when you go down.  
To see Horton Braloy.  
Who is only a poet.  
A "mold" whittapped.  
And white oporoid.  
Wheels out a little cart.  
With a lot of little cups.  
And they serve tea.  
And pass Russian cigarettes.  
And I know for a fact.  
That Braloy only has.  
Five dozen silk shirts.

To his back.  
And everywhere I go.  
I feel out of place.  
Everybody is trying.  
To impress me.  
And make me remember.  
That I was born.  
In Plattsburg, Missouri.  
And raised in Gallipolis, O.  
But they'd better.  
Have a care Jack Dalton!  
When I am cornered.  
I know how to strike back.  
And in a very few days.  
I'm going down town.  
And blossom out.  
In a pair of white spats.  
That will simply.  
Knock them dead.

CINCINNATI, Oct. 8.—Good evidence that he can master the Red if base ball weather was in prospect early in the season. It is today for the playing of the seventh game of the world series championship between the Chicago White Sox and Cincinnati Reds at Redland field. The game was fair and not so cool as yesterday morning. The government weather forecast for the day was for fair weather.

CINCINNATI, Oct. 8.—Fighting with their backs to the wall, but hopeful despite their four defeats, the White Sox will meet the Reds today in the seventh game of the World Series. The Reds and the 32,000 fans who witnessed yesterday's ten inning battle felt confident that the first would be the decisive one and that tonight the men of Moran would be proclaimed baseball champions of the world.

Before the game started it was believed that Manager Gleason, of the Sox, would send Eddie Cicotte, rated as the master pitcher of the American League, to the mound to face the Red Sox. Cicotte tried to stop them twice but failed, but Gleason has every con-

## Planes Start In Coast To Coast Aerial Derby

**FIRST TO GET AWAY**  
MINEOLA.—Lieutenant J. B. Macbie, in a De Havilland machine, equipped with a Liberty motor, was the first to get away in the coast to coast air race from Mineola to San Francisco and return at 9:15 a. m. today. Sergeant Jesse D. McClure accompanied him.

Ten machines, all of which flew in a northerly direction, had left Mineola at 9:50 a. m., maintaining a speed of 120 to 150 miles an hour.

An eleven machine, No. 35, piloted by Lieutenant George C. McDonald, was forced to return as a result of engine trouble after a short distance. McDonald expected to make a fresh start later in the day.

Because of the fine flying conditions many officials predicted many of the contestants would reach Cleveland by night fall.

**WESTERN PLANES HOP OFF**  
SAN FRANCISCO, Oct. 8.—Lieutenant J. P. Richter, piloting a De Havilland machine, was the first to hop off at 6:53 a. m. today, was first of the western planes to "hop off" in the coast to coast air race, New York.

Capt. R. A. Cardiff was second to take the air. He left at 6:52. His plane carried no observer. The first six machines took the air in less than five minutes and they were closely followed by three more.

**60 PLANES LINED UP**  
MINEOLA, N. Y., Oct. 8.—More than 60 airplanes were lined up at Mineola field here today awaiting the signal of Major General Thomas H. Barry, U. S. A., which would send them scattering on their way to San Francisco in the greatest aviation contest in history. At the same time nearly two score machines were in San Francisco ready to start on the east bound trip. The contest, which is limited to military aviators, is for the purpose of testing the reliability of the planes and stimulating interest in recruiting for the air service. A return flight also will be made.

Ten different types of machines were represented in the entries and some of them had seen active service on the battle front. Three of the planes entered are German. German machines captured almost intact on the western front. French, British and Italian machines also are entered.

Most of the American entries are equipped with the famous Liberty engine developed by America during the war and the race will afford a good opportunity to test its qualities against the best types of foreign makes.

Although prizes totaling \$25,000, had been offered by the American Flying Club and private individuals for the winners of the contest, Major General Charles T. Mencher, chief of the army air service, has ruled that they could not be accepted.

**RATINGS EACH DAY**  
He announced, however, that there would be ratings for competitors each day. These include a time competition for the pilot across the continent in the shortest time, irrespective of stops and actual flying time; a speed contest for the pilot making the trip in the shortest flying time; and a handicap competition based on actual flying time, but with each class or type of machine to be given a handicap percentage based upon its reported speed as computed by the technical section in its official tests.

Under the rules of the contest, there is to be no flying between sunset and sunrise, on Sundays or in bad weather. Each contestant will be required to stop at least 20 minutes at each of the twenty of the stops. Aviators remaining more than 48 hours at one station unless told there by the weather, are to be disqualified. No time will be taken out for forced landings.

The route is approximately 2,700 miles in length one way. The official stops in this are Cleveland and Bryan.

## TAILOR'S SON AND "TEDDY" STAGING INTERESTING RACE

Lieut. Col. Theodore Roosevelt, above, and Elias Raff.

The contest between Lieut. Col. Theodore Roosevelt, son of the former president, and Elias Raff, tailor's son who served as a private in the war, for election to the New York assembly is attracting nation-wide attention because of the interest in Teddy's son and the contrast between him and his opponent.

## MAN HUNT IN SOUTH

GREENVILLE, S. C., Oct. 8.—One of the most sustained man hunts ever witnessed in South Carolina was still in progress today in several counties eastward to Greenville for Joe Turner, negro, slayer of two Greenville policemen. The search, begun early Sunday morning, was being pressed by army posse, whose members avowed that it would continue until the negro was brought to book or definite information was received that he had left South Carolina soil.

**CAPTURE OF CITY ADMITTED**  
LONDON, Oct. 8.—The capture of the city of Voronezh, 250 miles southeast of Moscow, by the anti-Bolshevik forces of General Denikin is admitted in a Russian cable wireless message from Moscow received today. General Denikin's army is advancing on Voronezh, 25 miles north of Voronezh, the message adds.

## OPENING STOCKS

NEW YORK, Oct. 8.—Trading at the outset of today's stock market lacked the spectacular features of the preceding session, even the more speculative issues making only moderate gains with standard shares. Before the close of the first half hour, however, operations in numerous specialties were again under way, at rates of one to a point. Leaders of the movement included National Biscuits, American Woolen, Worthington Pump, Texas Company, Pan-American Petroleum, Sinclair, Kelly Springfield Tires, Central Leather, Industrial Alcohol and American Sugar. Leading ship, planes and the more active rails, notably Reading and Texas and Pacific, also improved.

**WEATHER**  
OHIO—Cloudy and warmer to night; probably showers in southern portion. Thursday showers and warmer.

## PRESIDENT IS STEADILY IMPROVING

WASHINGTON, Oct. 8.—With President Wilson's condition steadily improving, his physicians are having their hands full to keep his attention away from the duties of his office. They say that for the present, however, the prohibition against work will be enforced unless some matter urgently requiring attention develops.

The president also wants to read and while Dr. Grayson has permitted him to do so to a limited extent, he is prevented from reading for any great length of time because the physician fears there might be an injurious strain upon his eyes.

Although Dr. Grayson and the other physicians in the case appear very much encouraged over the progress made, they are guarding against being too optimistic. It was taken as a hopeful sign, however, that the president's two married daughters who have been at the White House for several days left for their homes yesterday.

It was said they might return in a few days regardless of the president's condition.

## 200 PERSONS EXECUTED BY BOLSHIEVIKI

WASHINGTON, D. C., Oct. 8.—State department advises today said 200 persons were reported executed by the Bolsheviki as a result of the action of the Bolsheviki extraordinary of Moscow investigating the surrender of the town of Grassy-Gorka by Bolsheviki troops. The full severity in Petrograd is acute and a month's complete industrial shut-down may be ordered.

## AH! PLAN NEW WAR ON OLD HIGH COST

COLUMBUS, O., Oct. 8.—All protesting attorneys and members of Ohio are to be marshaled for a fight on the high cost of living according to special dispatches to Columbus newspapers from Washington.

Arrangements for the campaign, the dispatches state, were made at a conference at the department of justice in which Attorney General Price, of Ohio, was a participant. Attorney General Palmer is the prime mover in a plan for a state meeting in Ohio, which is to start the ball rolling.

At the suggestion of the United States attorney general, Governor Fox will be asked by Attorney General Price to call a meeting of all prosecuting attorneys and members in Ohio to take place in Columbus within the next two or three weeks.

## CAPT. SULLIVAN CALLED BY DEATH

CINCINNATI, Oct. 7.—Captain John R. Sullivan, 57 years old, former Ohio River pilot, died at his home, 2112 Sprague street, yesterday. Formerly a member of the weekly meeting of the Knights of the Ku Klux Klan, he was a member of the local chapter of the organization. He was a member of the local chapter of the organization. He was a member of the local chapter of the organization.

## LENINE UNDER ARREST

LONDON, Oct. 8.—Admiral Sir Felix Sturges, Finland, report that Nikolai Lenin, the Russian Bolsheviki premier, has been placed under arrest in Moscow, according to the Evening Telegraph correspondent at Copenhagen.

Lenine is said to have ordered the arrest of Leon Trotsky, the Soviet minister of war, but failed to serve this, and instead was himself taken into custody.

A Soviet message, forwarded by the same correspondent reports a sign of terror against the Bolsheviki in Moscow has been begun by a revolutionary party. In this movement the Bolsheviki leader, Jacob Peters, is reported to have been killed.

Special dispatches from Stockholm September 25, carried a report that Premier Lenin was being held prisoner in the Kremlin at Moscow, and that People's Commissary (Bolsheviki) was in power and directing the movements of the army.

## FINLANDERS ARE MADE TO KISS THE U. S. FLAG

WEDON, W. VA., Oct. 8.—The Finlander community was held together last night three parties after yesterday's demonstration, when participants in the conference designated as representatives of the public. Representatives of the Finlander community were present, and a letter from the Finlander community was read. It was said the Finlander community was present, and a letter from the Finlander community was read. It was said the Finlander community was present, and a letter from the Finlander community was read.

## CONFEREES GET BETTER ACQUAINTED

WASHINGTON, D. C., Oct. 8.—Delegates to the president's industrial conference, better acquainted with each other and more familiar with the probable drift of their immediate business, were ready today for the opening of the third session of the gathering.

Perhaps the most important of the subsidiary gatherings was that which drew together last night three parties in the conference designated as representatives of the public. Representatives of the Finlander community were present, and a letter from the Finlander community was read. It was said the Finlander community was present, and a letter from the Finlander community was read.

## NEGRO IS LYNCHED

MACON, GA., Oct. 8.—No further outbreaks in Jasper county, where Eugene Hamilton, a negro, was lynched yesterday, was expected today, all reports according to the 60 or more masked men, who shot the negro, had separated and gone to their homes.

Hamilton, 29 years old, the son of a negro preacher, had been convicted and given a sentence of 10 years for an attempt on the life of Charles Tinsley, a Jasper county farmer. While an appeal for a new trial was pending, mob spirit flared up because of alleged delay in disposing of the case and it was decided to bring him to Macon for execution. The negro was taken from the sheriff just before he reached here, carried back to Jasper county, tied to a bridge and his body riddled with bullets.

**At Big Game**  
Will Miller, of Phila. Clark's office spent Tuesday in Cincinnati, witnessing the battle between the Reds and White Sox.

**Save Big Game**  
Rev. Charles R. Oakley, pastor of the First Christian church, saw the Cincinnati-Chicago game Tuesday.

## PREMIER DENOUNCES RAIL STRIKE

LONDON, Oct. 8.—Premier Lloyd George surprised his countrymen, as he frequently does, by denouncing the railway men's strike as "treasonable" and "another effort to hold up the community and strangle it into submission" at last night's ministerial house-lunch in honor of Field Marshal Allenby yesterday.

The occasion was an unusual one for such a topic, but the premier's habit of doing unusual things in unusual times.

"The nation means to be master of her own house," Mr. Lloyd George declared, "in just master, a fair master, a generous master, but always master in her own house."

This was naturally accepted as a proclamation of the premier's view that the government won a victory over the strikers.

J. P. Thomas, secretary of the National Union of Railway Men and leader of the recent strike, speaking at Allenby last Sunday night, dwelt upon the settlement as a compromise and yesterday issued a statement appealing for reconciliation and a burial of hard feelings. Labor papers appear to differ with Mr. Thomas as to some aspects of the strike settlement.

## SO MR. BRYAN SAYS

WILLIAM Jennings Bryan has loaned out of silence of unmounted duration and as he speaks on that topic of which so much has been said for a week, he must be heard respectfully, especially as he is a voter for the Reds.

He isn't that though because he has some sporting blood in him, not a bit, but for ethical and logical reasons. He's for 'em because they are all totalitarians. That's what he believes and he claims they are as good as won the pennant because they are. There is no assurance he knows what he is talking about and we do not believe he does. There is "dope" around the circuit that Pat Moran, their manager, never touches a drop, which is understood, of course, that he does not taste intoxicants, but we have never heard that about the members of the club. It is stated that Moran holds them to rigid rules and moderation in drinking, allowing no player to indulge in anything stronger than beer, and mighty little of that. Which all may be true and quite as likely may not be.

One thing is certain anyway and that is Moran holds the players to strict discipline and they are allowed to indulge in nothing that will dull their skill as players.

## THE LAND OF MISFORTUNE

THE Irish are considered the sunniest tempered of all the races of men. How seemingly contradictory it is then that they should spring from a land so stricken and afflicted. For centuries she was bloodily oppressed and heavy misfortunes have fallen upon her in various ways, but more particularly in the way of famine.

It would seem she has suffered her full portion, but calamity has again descended upon her, descended the exact word both figuratively and literally. For this time it comes in the shape of countless flocks of crows, which are estimated to have damaged the fields to the extent of at least half their crops. The scurries of these black marauders were driven from the continent by the constant cannonading of last year and have concentrated upon poor Ireland. The farmers are utterly defenceless against their raids, because poison has proved ineffective and since the St. PETERS began their disturbances all citizens are forbidden to keep arms and thus being deprived of even their fowling pieces they cannot use them to shoot the crows.

## A PLAN WORTH ADOPTING

THE aborigines have solved the plan of keeping the boy and for that matter, the girl too, on the farm.

Whenever a child is born the parents give it a chicken, a goat and a calf. These are allowed to increase by natural process, until the child becomes old enough to care for them himself. In the pride of ownership he seldom proves negligent of his flocks, but tends diligent care for them. When he becomes of age to marry he has proper means of his own and so has his bride also, for both have been provided for on terms of perfect equality, in the marital preserves and handles his or her own property entirely independent of the other.

If such a plan were adopted by all farmers there wouldn't be any call for this back to the land outcry. Down at its root human nature is conservative. It will generally hold on to what it has in preference to going out in search of a different treasure.

As a matter of fact an entirely different scheme is pursued on most farms. The children are given no interest whatever. May be the boy may be given a pig, occasionally, even allowed some spending money, but the girl receives nothing. It is inevitable, under such circumstances so many would lose interest in the farm and leave for the town where work will bring them something for themselves.

## A FINE LEGAL POINT

ALWAYS ready to play both ends of the string against the middle, the Anti-Saloon league, which several times against the spirit of the constitution and to the pestering of the voters, has had rapid popular ballots on prohibition called, resorted to the courts to save loss of victory it had secured through the legislature and besought them to restrain the wets from putting directly to the people whether national prohibition should be approved.

The state supreme court rules the people can pass upon the action of the legislature in approving national prohibition and nullify it if they so choose, just as they can any other act.

However, the constitution of the United States provides that amendments to the national constitution shall be passed upon by the several states through their legislatures, or by themselves assembling through a constitutional convention. Seizing upon this point and maintaining these are the only and sole means provided, the Anti-Saloon league is carrying the contest to the federal supreme court. Thus they bring up for final determination a fine legal point.

one that there may well be the splitting of hairs over. Yet, the state court was definite in passing upon it, only one judge holding adversely to the right of the people to express themselves directly upon the matter.

Still courts, aye, even supreme courts, are known to go wrong sometimes and it may turn out in this instance, that one Ohio judge was right and four others merely contrary.

## SHE MARRIED AN AVERAGE MAN

It's but a little more than a week to Jim's presents underneath and mine. Christmas. Thank God! the gluttonous too, that I shouldn't open till Christmas of Christmas has not yet died from morning!

My heart, steam, heat, shiver! I don't drag old Jim out shopping "hard" for the Christmas tree and with me tonight. The stores are open, the high cost of living have not died and it will be such fun to buy the choicest my Christmas spirit. I'm the trimmings and push through the throng as a lack, preparing for our crowded the miniature crowds of the first real Christmas together in our Centerville!

Later, As I stitch and knit and embroider. I asked Jim about the shopping trip the gifts I'm sending to those I love and his reply punctured my enthusiasm. "And there isn't a modern, glamorous look like a pin in a balloon. It takes some time to get the picture. 'Not on your life, ma'am!'"

What New York must look like these more than a want it makes an arch-bundling days. Have they the Christmas and to stand the shopping fest. I'm sure split there? Do people visit the tired, kitchen. What's the use making poor and the sick and make children so much fuss over Christmas any happy as we in Centerville try to do? how?

And oh, how I should love to see the I didn't insist. I went alone, which shops that have been of the wonderful ing and wishing my nature and that things Centerville stores set forth in were more alike.

Two and three so profitably labeled. As I pushed into our biggest store, feeling rather antipathetic and tired.

I'm trying to be economical with I wondered if any couple is perfectly my presents, sitting there carefully to congenial. Does any woman over the persons they're for. Jim's \$20 will chance to marry a man who looks easily cover all. But it will be so ab-over the things she handles over?

And to use part of that \$20 to buy like the same people? Enjoy the Jim's gift that I've decided to draw same sort of looks and amusement a little from my own savings bank. Just as I was wondering I saw a board that I learned before I married, girl and a man come down the store. I've decided on one of those warm, side having such a good time. I don't, silky, crinkly, bounding gown.

I don't, I got the idea of it the night pair. They entered she looks up at him. How interested he is in her shopping trip.

As they came abreast of me I heard the girl say with a tremor of tears in her voice: "Oh I don't see how you can want to be so disagreeable!"

I long to take the girl in my arms and say: "Never mind, dear. I understand. Don't let it grieve you too much. We're all in the same boat." (To be continued.)

New York, October 8—

Two many of the friends.

Are putting on airs.

Something about New York.

Makes a person.

Want to call a "diced girl."

A "mink."

And things like that.

And just lately.

Blue Butler has hired.

A French governess.

For his little girl.

And Webster, the cartoonist.

Has a Japanese cook.

And Arthur Somers Roche.

An English butler.

Whose name is Jergens.

And even Ohio Solo.

Calls his house "The Oaks."

And Edna Ferber.

Who is from Appleton, Wis.

Where they still.

Have faith in so-menders.

Has a low rap—ouch our.

And Ray Long has a yacht.

With wicker furniture.

And when you go down.

To see Horton Dedlow.

Who is only a poet.

A "mink" will be capped.

And white aproned.

Wheels out a little over.

With a lot of little caps.

And they serve tea.

And pass Russian cigarettes.

And I know for a fact.

That Harley only has.

Five dozen silk shirts.

To his back.

And everywhere I go.

I feel out of place.

Everybody is trying.

To impress me.

And make me remember.

IN THE DAY'S NEWS

MRS. GEORGE BASS

Mrs. George Bass of Chicago, who has had probably a wider experience as a political campaigner than any other woman in the country, is sure to become a prominent figure in Democratic circles in the next few months. She will have an important part in organizing women voters of the country for which the Executive Committee of the Democratic National Committee has already prepared.

In the 1916 campaign, operating from Chicago, Mrs. Bass did remarkable work for the Democrats, and it was largely due to her efforts that ten of the twelve states in which women were then voting were carried for Woodrow Wilson in the Presidential election.

She then gained a knowledge of the conditions in these pioneer Suffrage States, which she has at her finger tips, and she can battle the facts and figures as to the situation and conditions in Colorado, for instance, in an amazing way.

Mrs. Bass was very active in war work, speaking for the Liberty Loan and other drives, and more recently she visited several states, speaking in favor of the League of Nations. She conducted their side covered the true situation in California many weeks ago and informed the President at the White House that the women of the far Western States were all eager to see the much talked of covenant adopted.

At the recent meeting of the executive committee of the Democratic National Committee in Atlantic City, Mrs. Bass reported conditions as she found them and made the suggestions which later led the committee in executive session to decide to admit women in the party councils on an equal footing with men.

Non Essentials First. Little Deke, out for a walk with mother, noticed a poor, ragged little urchin.

"Yes, dear," said mother, "That poor little boy has no father to give him toys and things, like you have. Wouldn't you like to do something for him? Wouldn't you like to give him your rabbit?"

Deke thought a moment, and then suggested: "I'd rather give him father."

## May Build New High School

The Trinton board of education has started a movement for the erection of a handsome new high school building in that city.

It has been needed for several years and the board members are in earnest about building one. They have already started a campaign to select a suitable site.

A small blaze, probably started a cigarette butt, was discovered Tuesday night shortly after midnight on the Whitaker-Glessner, 6184 Fells street, back rooms of Sixth street.

The alarm was turned in by a man who happened to be passing and saw the bludge.

## Trachoma Clinics Continue

"No, a person doesn't die of trachoma, but a person becomes blind," says an expert on the subject, Surgeon John McMillen, employed by the United States Public Health department and now combating the Trachoma epidemic here.

There is no choice with the inevitable. As long as the dread contagion rears its head unguarded among the blind children of Portsmouth, the tragedy of blindness will multiply.

Treatments which cure the disease are being conducted by Surgeon McMillen, United States Public Health representative, Dr. Ross Hopkins and Dr. F. L. Goodwin, State Public Health representatives, who were sent here for that purpose by the State. The treatment is free and is a cure from blindness which is the result of trachoma.

Neglect in this matter is criminal. What your child has, may spread through carelessness to many other children in the school room or at play, or it will be reversed and it will be your child who may contract the disease.

Already 69 percent of the cases found in Seaboard county have received the treatment which cures the disease. A few cases will remain.

The final opening of the clinic will be held here Friday and Saturday of this week at the City Street Dispensary. Surgeon McMillen will personally conduct the clinic. Dr. Hopkins and Dr. Goodwin will be at the clinic. Public Health nurses will assist.

Thirteen cases of smallpox are under strict quarantine in Houlston and an order has been issued by health board there to have every school child in the city vaccinated without delay in an effort to prevent serious spread of the disease.

OH SHUCKS, NOW IT IS BASEBALL ROSE

OF course you have heard about the number one, nine man and the American Beauty race, but did you ever hear of the Baseball Race?

Well, John Jones, who lives at Front and Washington streets, who is an ardent fan, has a "Baseball Race Bush" in his yard, and he is a man whose veracity is unquestioned.

When the Sox and Red clashed in their first game, a deep red rose blossomed on the bush. The same thing happened when the Reds capped the second game. On the third day the bush refused to yield a flower, a green fruit being found instead. However, on the fourth game another red rose appeared on the bush and the fifth made its appearance Monday.

Mr. Jones has shown that bush and trees to many other fans and they insist that they are a sure sign the Red will win the Lamplighter.

# HELD TO GRAND JURY

George Rayner and Mel Jenkins, well known police court offenders, were given a hearing before Mayor Kays Tuesday night on charges of stealing lead clothing from the home of William Cech, 1845 Waller street. Rayner blamed the theft on Jenkins, and Jenkins blamed it on Rayner. Mayor Kays came to the conclusion that the old saying, "a good Indian is a dead Indian" applied in this case, and decided it was best for the pair to be sent to jail, and bound over to the grand jury on \$200 bond each, which they were unable to furnish. Charges of larceny and burglary are the ones the grand jury will investigate in taking up the case of the pair.
